Hi Gary,
I checked with the communications department and they state it is ok for media to be here for the meeting. The media will need to only film inside the meeting or outside the library.
Enjoy!

Tomika:

I promised to send you an email about the proposed meeting that I signed up to at your library. We are still looking at alternative locations (Hartsfield Elementary). Should the meeting actually happen, media may want to attend. Please check with your office to see what the requirements would be should media want to attend.

Thank you
